Summary

Information Technology graduate with expertise in software development, passionate about building practical and innovative applications. Driven to solve real-world problems, create efficient solutions, and contribute to impactful software projects.

Education

Bachelor of Technology (Information Technology)

2021 – 2025

Gudlavalleru Engineering College, Gudlavalleru

GPA: 7.3

Intermediate Education

2019 – 2021

Sri Chaitanya Junior College, Guntur

Grade: 73%

Secondary Education

2019

Sri Chaitanya High School, Guntur

GPA: 8.8

Projects

Smart AI Research Assistant | *Java, Spring Boot, JavaScript, Gemini*

- Built an AI-driven research assistant using Spring Boot & Gemini API to summarize text via RESTful API, reducing manual research time by 40%.
- Developed Chrome Extension to extract & store research notes in chrome.storage.local.
- Designed a scalable backend architecture for easy integration of future AI models and database support.

Medical Image Diagnostic Assistant | *Python, Streamlit, Gemini AI*

- Built a web app to analyze medical images and generate structured reports with detailed analysis, findings, and recommendations.
- Enabled real-time image upload and processing with support for JPG and PNG formats.
- Integrated AI safety settings to ensure reliable and responsible output for clinical use.

Skills

Backend: Java, Python

Databases: MySQL **Frontend:** HTML, CSS, JavaScript

Tools: Git, GitHub, Microsoft Office, VS Code

Concepts: Data Structures & Algorithms, Agile methodology

Soft Skills: Team player, Communication, Time Management

Courses & Certifications

– Wipro Talentnext - Java Full Stack (2024)

I've completed all milestones of the Wipro Talent NeXT Java Full Stack program! This journey has been an incredible learning experience, allowing me to dive deep into Java development, front-end technologies, and full-stack application building.

– PowerBI, SmartBridge (2025)

Completed the Data Science using Power BI course, gaining strong knowledge in data visualization, business intelligence, and creating interactive dashboards for actionable insights.

– Top 5% in NPTEL Certification – IIT Kharagpur (2024)

I completed the NPTEL IoT certification from IIT Kharagpur, where I gained deeper insights into IoT architecture, sensors, networking, and real-world applications. I secured 70%, marking an important step in my IoT learning journey.
